# LINKEDIN LIVE SESSION ON AWS COMPUTE SERVICES

EVENT HIGHLIGHTS

📍 : LinkedIn Live
📅: 4th September
🕐 : 7:00 PM

On September 4, 2023, an engaging LinkedIn Live session titled as **"Introduction to AWS and its Compute Services"** was conducted.

This insightful event, hosted by **Sankalp Sandeep Paranjape** (AWS Cloud Captain), featured **Dr. Rajani Sajjan** Ma'am (AWS Certified | AWS Educate Associate Professor, MIT ADTU) as the distinguished speaker.

The primary goal of this session was to shed light on key aspects such as AWS global infrastructure, compute services, an overview of Amazon EC2 instances, security measures, storage solutions, and cost optimization strategies. Moreover, the event also highlighted the vast potential of AWS. The event received an overwhelmingly positive response from the audience, with a large number of enthusiastic attendees actively participating.

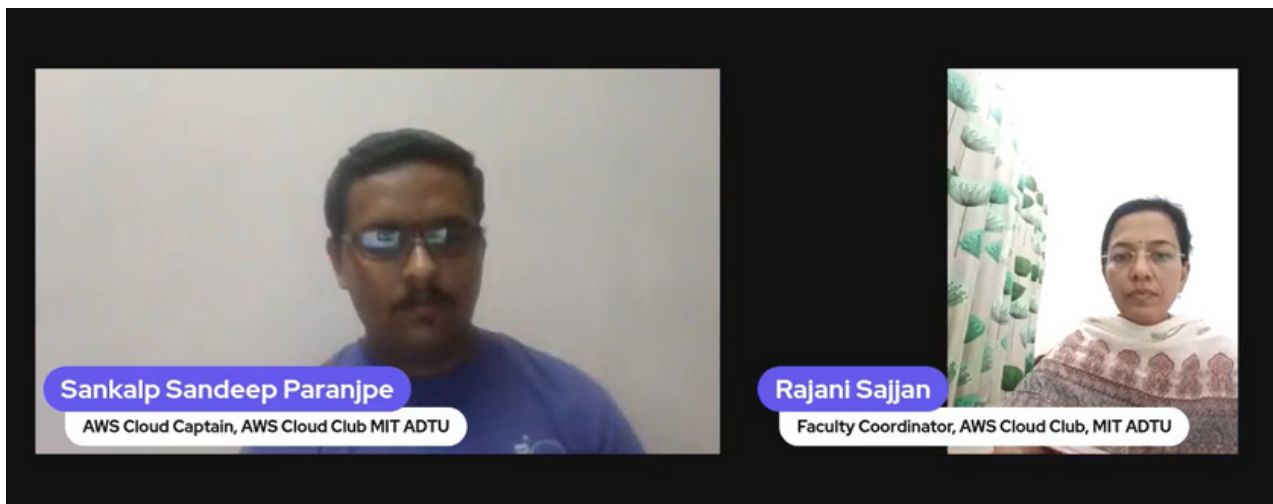

[Session initiation on linkedIn Live]

Dr. Rajani Sajjan Ma'am delved into the intricacies of AWS, making it accessible to both beginners and those with some familiarity. She explained the fundamental concepts and principles behind AWS's global infrastructure.

Core Takeaways From The Session

- The session provided an extensive exploration of **AWS compute services**, with a particular emphasis on Amazon EC2 instances. Attendees gained a deep understanding of these services, including their functionalities, advantages, and practical applications.

- Dr. Sajjan underscored the paramount importance of security within the cloud. Attendees learned about AWS's robust **security measures** and best practices for ensuring data protection.

- Valuable insights into **AWS storage solutions** were provided, encompassing Amazon S3 and EBS.

- The event addressed the critical aspect of **cost management and optimization** in cloud computing. Participants were equipped with practical strategies for effectively managing AWS costs.. Additionally, the session touched upon **containerization** through ECS (Elastic Container Service) and the **serverless computing** model with Lambda, broadening the perspective on AWS services.

The LinkedIn Live session offered attendees a strong foundational understanding of AWS and its critical components. This enthusiastic turnout not only demonstrated the event's success but also highlighted the strong engagement within the AWS community.
